Confirmation of student assistant activity in addition to the receipt of a scholarship

Only if there is no connection in terms of time, place or subject matter, the student assistant contract is possible alongside the scholarship. The scholarship and the student assistant contract are considered separately and the scholarship remains exempt from social insurance.

Surname, first name of the assistant	
Scholarship provider	
Scholarship activity / purpose	
Scholarship period	
Activities in the student assistant contract	

It is hereby confirmed that there is no factual, temporal and local connection between the scholarship and the student assistant contract.

It is noted that a tax and social security audit could result in substantial additional tax and social security contributions if the activities are considered to be subject to combined assessment.
